Mr. Dille reported that he had visited the site earlier this morning to determine the cause of the windows that are cracking for no apparent reason. POWER COUNTY TRANSFER STATION & LANDFILL – ROCKLAND DUMPSTER SITE (TREE/ BRUSH REMOVAL): Commissioner Anderson reported that Rockland area residents continue to litter the Rockland dumpster site with tree and brush piles, which is contrary to the Idaho Department of Environmental Quality standards for solid waste satellite sites. Following discussion, the Commissioners agreed to make an on-site inspection of the Rockland dumpster site later today to determine the optimum solution to clear the tree and brush debris; accordingly, further discussion of this matter was tabled until September 8th, 2014.
